## New VOC regulation EU 2004/42

Dear customer

The EFTEC Group has always worked towards more health & environmentally friendly products. Already in 1970's and 1980's strong aromatic solvents have been replaced by low aromatic white spirit.

In order to comply with the new VOC regulation EU 2004/42, valid January 1st, 2007, EFTEC Aftermarket has performed intensive work:

- Studied and interpreted the content of the EU regulation
- Classified our products and compared to the new requirements
- Defined actions where required
- Modified some products without any quality deviations

We are happy to inform you today, that all the products in the range of EFTEC Aftermarket fulfill the new VOC regulation EU 2004/42, valid January 1st, 2007.

With this in mind, we look forward with confidence to jointly strengthen our market position.

Yours sincerely,

EFTEC Aftermarket GmbH

Robert Schwägler  
Managing Director
